Description of masculine & feminine waters

- [Female Water](#)
- Passive, negative principle in nature
- Shaded orientation against the sun
- North or shady side of a hill
- South of a river so bank protects against the sun
- Magnetic infused south pole north leaning
- – orp high free electron potential
- Hydrogen enriched
- slightly alkaline
- Naturally found in Springs protected by forests, rainwater is an immature form of female water needs geomagnetic conditioning,

how to make:

1. Ultrapure water
2. Negative ORP,
3. Keep in refrigerator in a container shielded from light

6. Slightly buffer with baking soda if necessary

Male Water

- Positive, active, male principle in nature
- South or sunny side of a hill
- North of a river to get full sun .
- Charged electrolytes maximum photon infused .
- Oxygen enriched
- Slightly acidic
- Naturally found in rivers and streams

how to make:

1. Ultrapure water
2. Add good electrolytes
3. Put in glass bottle and exposed to sun for at least a day
4. Bubble ozone for at least 20 min.
